

Balloon Car

How to Make Steps

Material List

Step 1:

Cut out a small piece of cardboard using a scissor.

Step 2:

Cut one straw into two pieces and stick both pieces to the bottom side of the cardboard as shown below.

Step 3:

Slide the two spokes through the two straws.

Step 4:

Attach the 4 wheels to both sides of the two spokes.

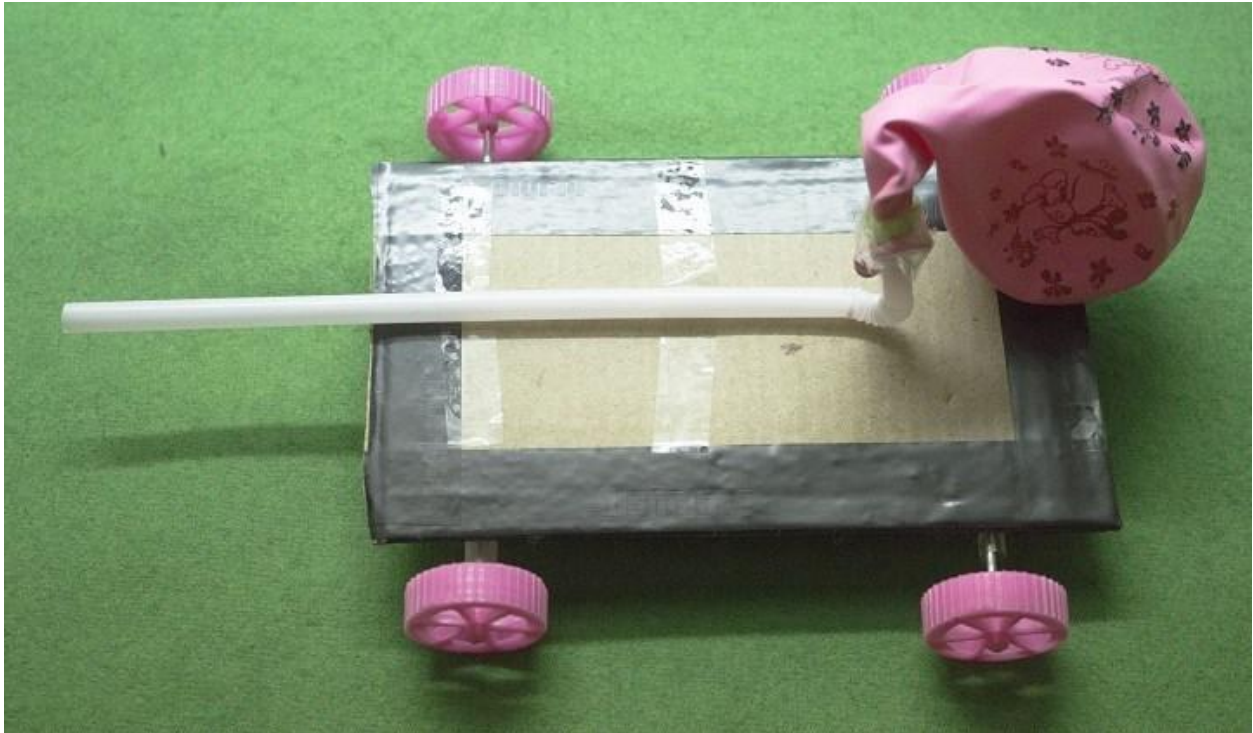

Step 5:

Attach the balloon to the other long straw with the help of the rubber band.

Step 6:

Tape the straw attached to the balloon to the top side of the cardboard.

Step 7:

Fill the balloon with air and put it on the ground and test.
